

Donald Rail Yard Environmental Clean up

VicTrack is carrying out \$90,000 environmental works at the Donald Rail Yard. Works will start in late-September, with completion expected by the end of November. These works aim to reduce and/or remove weathered diesel from the groundwater and control the offsite movement of the contamination.

Work Details

In general, works will be conducted between 7am to 6pm, weekdays. During works you may notice heavy equipment activity as well as increased traffic flow. At times there may be disturbance in the area due to increased noise levels. Work areas have been defined with appropriate work practices and safety signage.

Works will be monitored by expert environmental staff and done under EPA standards.

VicTrack wishes to apologise for any inconvenience or disturbance that this work may cause. We wish to assure you that every effort will be made to keep disruption to a minimum.
