## **Update: Train derailment blocks traffic for hours on the perimeter**

By Staff, Metro Winnipeg

A train derailment blocked traffic on the east Perimeter highway, and Winnipeg police were urging commuters to find another route.

A spokesperson for CN Rail said no one was hurt in the derailment, which happened at about 6:45 a.m. Thursday. The portion blocking traffic was cleared by 11 a.m.

CN said they're not sure what caused the derailment, which saw one locomotive and one train car derail upright.
