A collision between two locomotives near Symington Yard sent one man to hospital early this morning.

The incident occurred at approximately 7 a.m., near the Trans-Canada Highway heading southeast out of Winnipeg. Two trains were involved in a low-speed accident along one of the tracks, resulting in minor damage to the locomotives.

There was no derailment. A CN spokesman indicated there was no spill or leakage of materials.

An engineer was transported to hospital with a minor injury.

The cause of the collision is under investigation.
